Subject: Dimock - Revised Analytical Requests for March Sampling

Rupert,

Based upon the recommendations submitted by Stevie Wilding on 2/27/12, I have attached the revised analytical requests for your review and approval.

I have made all the recommended changes noted by her, except for the PAH-SIM analysis. I would think that since Region 3 is currently not able to perform this analysis, there would not be ample time to get another Region to perform the analysis. Also, since it wasn't performed in the Jan – Feb 2012 sampling, we probably would not want to add it now. Your thoughts?

If you agree with the requests and to not perform the PAH-SIM analysis, please let me know and we will formally submit the analytical request to Ft. Meade.

Thanks,

Suddha Graves
